PROJECTS:

Smart College Management System -- SAP RAP Project

- Developed a full-stack Smart College Management System using SAP RAP, CDS Views, DCL Access Control, OData V4, and SAP Fiori on SAP BTP ABAP Environment. Implemented enterprise RAP architecture including behaviour definitions, metadata extensions, service bindings, and role-based access control.

Loan Eligibility & Approval System – SAP RAP Project

- Developed a Loan Approval application using SAP RAP and SAP Fiori on SAP BTP ABAP Environment.
- Implemented loan eligibility logic based on applicant age, salary, occupation, and CIBIL score using RAP determinations and validations.
- Worked with CDS Views, Behavior Definitions, OData V4, Service Bindings, and SAP Fiori integration.

CERTIFICATIONS & ACHIEVEMENTS

- SAP Certified Associate: ABAP Cloud Backend Developer (C ABAPD 2507).
